

LightSYS™ 2 Quick User Guide

This quick user guide describes the main user operating actions of the LightSYS. To view the full version of the user manual, please refer to our website www.riscogroup.com.

Register with RISCO Cloud (if enabled)

Registering with RISCO Cloud enables you to monitor and control your system.

1. Go to www.riscocloud.com and click **Register**.
2. Enter your first name and last name.
3. Enter your email address as Login Name (required for 1st time activation).
4. Define password (must be: a minimum of eight characters; contain at least one capital letter and one lower case letter; contain at least one number; and contain at least one special symbol) and confirm.
5. Enter in the 15 digits Panel ID as it appears: on the panel or supplied by the installer (also available in the keypad menu as described below).
6. Complete registration form and click **Register**.
7. To complete registration open the email message received on the email account you defined as Login Name.

Login to RISCO Cloud

1. . Go to www.riscocloud.com
 2. . Enter User Name and Password (same as supplied during the registration process).
 3. . Enter Passcode/PIN (LightSYS user code).
 4. . Click **Enter**.

SMS Control Commands via GSM

To control the system via SMS commands, the system must be equipped with a GSM module.

SMS Commands	
Set: code + S (Example: 1234S)	View last alarm : code + AL
Part Set: code + P (Example 1234P)	Group Set: code + G + select group A—D
Unset: code + US (Example 1234US)	Get SIM credit level: code + CR
Partition Set: code + S + partition number	Activate Output: code + POON + PO number
Partition Part Set: code + P + partition number	
Partition Unset: code + US + partition number	Deactivate Output: code + POOFF + PO number
Get system status: code + ST	
Omit Zone: code + OM + zone number	Change FM number: code + FMPHONE + FM serial number + NEW + new phone number
Un-Omit Zone: code + UNOM + zone number	

Notes:

1. Command words are not case sensitive (they can contain both capital, small or mixed lettering).
2. A separator between command words is not required, although it is accepted.
3. Default grand master code is 1234.
4. To receive an acknowledgement reply, add **RP** to the end of an SMS command.

Telephone Control Commands

Remark: Available only if your LightSYS is equipped with a voice module.

Receiving a call:

1. Pick up the phone.
2. Say "Hello" press [#]. You will hear an event announcement message.
3. Choose an option from the **Acknowledgment menu**.

Acknowledgment menu

Acknowledge message: [1]
Acknowledge and stop all dialing: [2] [User code] [#]
Access Operations menu: [3] [User code] [#]
Listen and Talk: [6] [3] [User code]
Repeat the event message: [#]
Repeat the Acknowledgment menu: [*]

Calling the System:

1. Dial the number of the premises.
 - If an answering machine is present at the premises: Let the line ring once, hang up and call again.
 - If an answering machine is not in use at the premises: Wait until the system picks up. You will hear a continuous tone.
2. After the tones, enter the 2-digit remote access code.
3. Enter your user code followed by [#].
4. Choose your option from the **Operations menu**.

Operations Menu:

Arming all Partitions: [1] [1]
Arming by Partition: [1] [9] [Partition no.]
Unsetting all Partitions: [2] [2]
Unsetting by Partition: [2] [9] [Partition no.]
Changing Zone Omit: [3] [Zone no.] [#] [9]
Operating Programmable Outputs: [4] [PO no.]
Changing FM Numbers: [5] [FM no.] [#] [2]
